

# EXPLORE

When visitors want a real, authentic taste of the Wild West, they visit Wickenburg. The town has successfully merged the past with the present in a way that awakens the cowboy in everyone. Enjoy a day of fine art at the Desert Caballeros Western Museum, watch a performance at The Webb Center, or take a historic walking tour through Wickenburg's restored downtown.

We hike trails, ride horses, and then ride in a jeep to experience natural trails and historic places. We can participate or watch team roping at local arenas, ride a mountain bike, or sit and wait for the sunset. We disconnect from the grid and reconnect with each other, and have since 1863. Take a day trip or spend a week, because there's no better place to truly experience the historic wonder of the West.
